BEEJASINI FUTTINGA

SOFTWARE DEVELOPER | PHP | API INTEGRATION | SQL SERVER & MYSQL

Mauritius • beejafuttinga@gmail.com • linkedin.com/in/beejasini-futtinga-1a78b0279

PROFESSIONAL SUMMARY

Software Developer with 3+ years of professional experience building and supporting enterprise and business-critical applications. Hands-on experience with PHP, JavaScript, SQL Server, MySQL, REST/SOAP APIs, JSON/XML, automation and production troubleshooting. Experienced in billing and payment systems, e-invoicing/fiscalisation, cashback platforms, internal dashboards, data reconciliation and scheduled background processes. Strong analytical approach to debugging across application, database, API and server layers. Currently pursuing an MSc in Software Project Management, and open to software developer, software engineering and backend developer roles.

TECHNICAL SKILLS

Languages	PHP, JavaScript, HTML/CSS, SQL
Frameworks / Libraries	jQuery, AJAX, Node.js
Databases	Microsoft SQL Server, MySQL, SQLite, Firebase Firestore
APIs / Tools	REST, SOAP, JSON, XML, cURL, Git, Composer, PHPMailer, wkhtmltopdf, Dompdf, pdftk, SSH, WinSCP, PuTTY

PROFESSIONAL EXPERIENCE

Software Developer | Emtel

Nov 2024 – Present | Mauritius

- Develop and maintain PHP-based enterprise applications and internal business systems across development, UAT and production environments.
- Build and maintain API integrations for billing, payments, e-invoicing and other business processes using REST/SOAP, JSON and XML.
- Develop complex SQL Server and MySQL queries for transaction processing, reporting, reconciliation and business-rule validation.
- Implement automated scheduled processes using Windows Task Scheduler and cron, including data processing, notifications, reporting and operational workflows.
- Investigate and resolve application, database, API connectivity, server and production issues through structured debugging, logging and data analysis.
- Contribute to lease management, e-invoicing/fiscalisation, payment/billing and recharge cashback solutions.

Associate Software Developer | Emtel

Aug 2024 – Oct 2024 | Mauritius

- Supported development and maintenance of enterprise web applications using PHP, JavaScript and SQL.
- Worked on API integrations, database processing, troubleshooting and UAT activities.

Trainee – Software Developer | Emtel

Jul 2023 – Aug 2024 | Mauritius

- Developed and maintained web application functionality using PHP and JavaScript with database-backed business logic.
- Gained hands-on experience in API integration, SQL, debugging, testing and enterprise application support.

INTERNSHIP EXPERIENCE

Development Intern | Rogers Capital

Jun 2023 | Mauritius • Hybrid

- Development internship with exposure to Python programming and software design/prototyping using Figma.

Development Intern | Ceridian

Jun 2022 – Sep 2022 | Mauritius • Hybrid

- Development internship with exposure to ASP .NET, Agile methodologies, Scrum and software development practices.

EDUCATION

MSc Software Project Management | University of Mauritius

Aug 2026 – Present | Mauritius

- Currently pursuing a postgraduate degree in Software Project Management.

BSc (Hons) Software Engineering | Université des Mascareignes / Université de Limoges
Aug 2020 – Dec 2023 | Mauritius / France

- Dual-institution academic pathway in Software Engineering.

SELECTED PROJECTS

E-Invoicing & Fiscalisation	API-driven invoice processing, billing workflows, data validation and integration with fiscalisation/MRA-related processes.
Recharge Cashback Platform	PHP/MySQL platform for recharge eligibility, cashback tracking, automated processing, SMS notifications and UAT/production operations.
SRM Free Internet Project	Automated API-to-database workflow for record matching, deduplication, registration/termination business rules, CSV reporting and scheduled email notifications. Activation of airbox based on eligibility check.
Lease Management & Landlord Systems	Internal web applications supporting lease processes, landlord information, settlements, reporting and database-driven workflows.

EARLIER / ACADEMIC PROJECT EXPERIENCE

Dose 360 | Technology: PHP
Developed functionality for a PHP-based application, gaining practical experience in:

- PHP backend development
- Database-driven applications
- Web application development
- Business logic implementation

ADDITIONAL TECHNICAL EXPERIENCE

Linux and Windows environments • ODBC / SQL Server connectivity • SSL/TLS and API connectivity troubleshooting • Automated email and SMS notifications • CSV/PDF generation • UAT and production support • Agile / Scrum

PROFESSIONAL STRENGTHS

Problem solving • Analytical thinking • Debugging • Data accuracy • Business-rule implementation • System integration • Adaptability • Team collaboration • Independent technical investigation
